MEMORANDUM FOR THE RECORD

SUBJECT: Concurrence in Contract [redacted]
[redacted]
[redacted] Project AQUATONE

1. This memorandum contains a recommendation submitted for approval of the Project Director. Such recommendation is set forth in Paragraph 5.

2. Q-56 recorders were procured under Contract [redacted] from the subject company for use by Project [redacted]. The recorders now need to be modified to be compatible with In-Flight Processor Cameras being developed and produced for [redacted] under Contract No. [redacted] with Eastman Kodak Co. Due to the uncertainty of locations of the recorders where the modification kits will be installed the contract for 8 kits has been written as a fixed price subject to price redetermination, upward or downward.

3. The target price is [redacted] with a ceiling price of [redacted]. The amount of [redacted] should be obligated against [redacted] 1958 Fiscal Year funds which have been transferred to Project AQUATONE. By concurrence to this memorandum the Project Comptroller signifies that sufficient funds are available for this obligation.

4. Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956, which in effect results in all 10(b) expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 10(b) of Public Law 110, 81st Congress, for each contract.

5. Approval of Contract [redacted] and execution thereof
on behalf of the Agency by the authorized Project Contracting
Officer is recommended.
